

Training and Consultancy Services

Our Training Services for Individuals, Corporations and Universities include: Pre/Post-course Assessment to ensure you have benefited from our training; Customized Trainings (Nationwide); Curriculum Development for Institutions of Learning; On-site and In-house Training; Authorized Testing and Certification; and Mentoring. This empowers individuals and teams to improve the Return of Investment (ROI) and reduce the Total Cost of Ownership (TCO) of IT.

We also offer the same courses and titles on online and e-learning mode using our own Learning Management System (LMS). We cover a wide scope of areas and fields for our training services, as follows :

- Languages
- Academic and Research
- Information Technology & Computer Science
- Engineering
- Aerospace
- Physics
- Pharmaceutical Sciences
- Management
- Journalism & Marketing
